

Technical Data Sheet of Latex for Adhesive

Chemical Name: Chloroprene Rubber Latex for Adhesive

CAS NO.: 9010-98-4

Technical Data of Chloroprene Rubber Latex for Adhesive:

Items	Specifications
Solid Content, %	≥ 50
PH Value	≥ 11.0
Viscosity (25 $\pm$ 1) $^{\circ}$ C, mPa.s	≤ 40
Surface Tension (25 $\pm$ 1) $^{\circ}$ C, N/m $\times 10^{-3}$	≤ 45
Appearance	Milk white emulsion

Application:

Latex for Adhesive is primarily used in the production of water-based adhesives for bonding mattresses, sofas, chair cushions, carpets, PVC flooring, and wallpaper, etc.

Package:

200kg plastic drums or IBC drums.

Storage:

The product has a shelf life of 6 months at room temperature, starting from the date of manufacture.
