Technical Date Sheet of Latex for Adhesive

Chemical Name: Chloroprene Rubber Latex for Adhesive
CAS NO.: 9010-98-4

Technical Data of Chloroprene Rubber Latex for Adhesive:

Items	Specifications
Solid Content, %	≥50
PH Value	≥11.0
Viscosity (25±1)°C, mPa.s	≤40
Surface Tension (25±1)°C, N/m ×10-3	≤45
Appearance	Milk white emulsion

Application:

Latex for Adhesive is primarily used in the production of water-based adhesives for bonding mattresses, sofas, chair cushions, carpets, PVC flooring, and wallpaper, etc.

Package:

200kg plastic drums or IBC drums.

Storage:

The product has a shelf life of 6 months at room temperature, starting from the date of manufacture.
